6. Circumstances of Discontinuance.

The Affected Services are provided via a service platform that has reached the end of its useful life and which is scheduled to be decommissioned on or about February 15, 2019. The discontinuance of the Affected Services will impact a total of 62 business customers across the above-referenced locations in North Carolina. Windstream will assist affected customers in migrating their services to Windstream's supported platform or upgrade to one of our more robust unified communications products. Alternatively, the affected customers may obtain service from an alternative provider. These customers will not be unduly harmed because they are being provided ample notice of the discontinuance in order to choose an alternative service option.

7. Conclusion

Windstream believes that the proposed discontinuance is reasonable and necessary. The end-of-life service platform from which these customers currently obtain service needs to be decommissioned. Moreover, as outlined herein Windstream will take reasonable steps to assure that the discontinuance of this service is not unduly disruptive to the present or future public convenience and necessity. Accordingly, Windstream respectfully requests that the Commission permit it to discontinue the provision of the Affected Services to these customers pursuant to Section 63.71.
